EXPERIENCE

Software Engineering Intern

Barracuda

September 2023 – August 2024, Ottawa, ON

- Built and maintained backend services in C# .NET for a new product, accelerating development by 30% and driving innovation from concept to deployment.
- Developed an issue tracking dashboard that increased bug visibility by 40% and improved team communication efficiency by 25%.
- Led test implementation, achieving 60% code coverage through unit and integration testing, ensuring high-quality, reliable releases.
- Collaborated in Agile teams, contributing to planning, design, and development, resulting in a 20% improvement in sprint velocity and faster feature delivery.

Property Inspection Representative

Accora Village

May 2023 – September 2023, Ottawa, ON

- Conducted thorough move-in/out property inspections, ensuring accurate documentation and condition reporting.
- Performed detailed data entry and maintained inspection records to support property management operations.
- Streamlined Smartsheets workflows by creating custom forms, enhancing efficiency and team collaboration.

Resident Experience Representative

Accora Village

September 2022 – May 2023, Ottawa, ON

- Managed 1 on 1 client relations, ensuring positive experiences and resolving inquiries.
- Handled administrative tasks, processing payments, managing memberships, and coordinating rentals.
- Maintained accurate records and facilitated smooth day-to-day operations to enhance resident satisfaction.

Warehouse Co-Worker

IKEA

Nov 2021 – August 2022, Ottawa, ON

- Delivered 1-on-1 customer support, resolving stock inquiries with a 100% satisfaction rate.
- Picking orders for customers such as kitchens, sofas, or room sets.
- Used specialized software to scan and locate items within the warehouse and showroom.

Community Outreach Assistant

Winthrop Court Community House

September 2017 – March 2019, Ottawa, ON

- Created and implemented a balanced system of recreational time, learning, and meals for children between the ages of 7 to 13 within the community.
- Led and organized community events for members of the community.
- Solved any client inquiries with high courtesy.

EDUCATION

Major in Software Engineering

Carleton University • September 2020 – Present

INVOLVEMENT

Volunteer

Ottawa, ON • Link<ed> (Shopify) • January 2020 – April 2020

- Supervised and led Shopify's Link<ed> program, facilitating weekly sessions to engage youth (ages 6-14) in exploring technology.
- Delivered interactive lessons on computational thinking and digital skills, introducing coding, game development, 3D modeling, and more.
- Coordinated with Boys and Girls Club staff to organize and assign youth to various workstations, ensuring equitable participation and maximizing hands-on learning experiences.

SKILLS

Strong communication and people skills

Empathetic with clients' needs and the company's values to find an equilibrium

Efficient problem-solving skills and critical thinking given any problem
